

TAKE & MAKE

CRAFT KIT

Make Your Own LORAX

Instructions:

1

Wrap the construction paper around the cardboard roll and tape or glue together.

2

Color and then Cut out the parts of the Lorax.

3

Glue the pieces of the Lorax onto the tube.

4

Use a pencil or something similar to slightly curve the legs before you glue them onto the tube. (This helps give the Lorax some dimension.)
