HANDPRINT COOKIE MONSTER AND ELMO

Instructions:

Trace your hand on both red and blue cardstock. Cut out.

Cut out nose from the orange construction paper.

Glue eyes on cut out handprint with fingers pointing down.

Glue black pupils onto white eyes.

Glue the orange nose onto the bottom of the eyes, with about 1/3 of the nose overlapping the eyes.

Secure the black smile beneath the nose with glue.

For Cookie Monster:

Use your cut out handprint from the blue cardstock.

Assemble Cookie Monster's eyes by gluing one black circle to the top left part of the white eye. Glue the other black circle to the bottom right part of the white eye. This will give Cookie his signature silly look.

Arrange the blue handprint with the fingers pointing down. Glue the completed eyes to the top of the handprint. Attach the smile with glue just beneath Cookie's eyes.
