

TAKE & MAKE

CRAFT KIT

SNOWMAN WREATH

Instructions:

1

Neatly cut the middle out of a paper plate.

2

The middle of the paper plate is used to make the snowman's head. Glue it to the edge of the paper plate wreath.

3

Glue cotton balls around the edge of the paper plate wreath. These give a lovely 3D element to the snowman craft.

4

Using scraps of paper or card cut a hat, carrot nose and stick arms for your snowman. Glue the pieces on.

5 Cut three strips of cardstock to make the snowman's scarf. Place one across the snowman's neck and trim to fit. Cut the other two shorter and snip into one end to make the scarf tassels. Glue the two shorter pieces on too.

6 Bring your snowman wreath to life with adorable button eyes and a cheeky smile.

7 If you want to hang your paper plate snowman wreath up it is simple to glue or sticky tape a loop of ribbon onto the back.
