

TAKE & MAKE CRAFT KIT

Curled Paper Flowers

-  Wrap the paper strips around a pencil to create the curls.
-  Glue the end down to make a circle.
-  Hold until dry.
-  Cut thin strips for stems and cut leaf shapes. (You can cut two at once by folding the paper in half and cutting along the seam.)
-  Create a flower by gluing the stem and leaves to a plain sheet of paper. Add glue where you want to place the flower curls. Place the curls on top of the glue and press the curls down.
-  Allow drying completely before displaying.
