

TAKE & MAKE

CRAFT KIT

YARN POM POM POMS

Instructions:

1

Wrap yarn around the side of the template that has a gap in the middle until you have a plump lump of yarn.

2

Once the yarn is wrapped around your pom pom maker use another piece of yarn to tie it tightly in the middle.

3

Slide it off the end, turn it over and tie yarn tightly on the opposite side.

4

Cut the looped ends of the yarn using sharp scissors.

Flip
over for more!

5

You now have an untidy looking pom pom. Hold it over a piece of paper and trim the shaggy parts so it is nice and round-looking. The paper catches the trimmings for an easier clean up.
