

# TAKE & MAKE

## CRAFT KIT

# SPRING BIRDS

## Instructions:

To make the bird's body, fold the large circles in half so that the printed side is folded inward.

Glue one side of one circle to one side of the next circle until you have used up all of the 3" circles. Glue onto blue cardstock.

To make the bird's head, glue the 2" circle to the front of the bird.

Cut out and glue the tail to the back of the bird.

Glue on googly eye and beak.

Decorate by making simple clouds with a white crayon and glue on the sun.

Place the branch directly below the bird using plenty of glue.

Cut simple leaf shapes out of the green paper and glue a few around the stick
