

TAKE & MAKE

CRAFT KIT

Terracotta Pot Corgi

Supplies:

- Terracotta pot
- White flannel
- Brown flannel
- White paint

Needed:

- Black marker
- Glue/glue gun

Instructions:

Cut the brown felt into the shape of your corgi's ears. Once you have the right shape, cut the white felt into the same shape but a smaller size to fit into the brown portion of the ear.

Glue the two pieces together and set them aside.

On the terracotta pot, use the white paint to create the markings of your corgi. Make your friend unique!

Use your black marker to draw the eyes, nose, and mouth. Feel free to add whiskers, too!

When your pot is dry, glue on the ears. Your friend is ready!
