

TAKE & MAKE CRAFT KIT

STAINED GLASS KITE

Instructions

-  Glue black strips together to make a "kite frame", using one piece for the cross of the kite
-  Peel the backing from 1 piece of the contact paper
-  Press the kite frame down on the contact paper so it sticks
-  Place tissue pieces inside of the kite frame so that the entire area is covered
-  Peel the second piece of backing from the contact paper and carefully place it on top of your kite
-  Trim the excess contact paper along the edge of the kite
-  Attach yarn to create a tail for the kite
-  Tie provided ribbon to the yarn
-  Put your kite in a window to let the light shine through or fly it outside
-  Have fun!
