# EASTER EGG PAINT-CHIP GARLAND

## Materials:

Paint-chips in various colors

Twine

Glitter

Mod Podge

Paintbrush

Thumb-tack

Wooden stick

Scissors

## Directions:

1. Cut the paint-chips into egg shapes.

OPTIONAL: Apply mod podge and sprinkle glitter on top to decorate the eggs. Allow to dry.

2. Poke two small holes into the top of each egg using the thumb-tack. Using the wooden stick, push through the small holes to enlarge them until they are big enough for the twine to fit through.

3. Thread the twine through the holes on each egg until all eggs are on the twine.

Enjoy!
