

TEEN TAKE & MAKE CRAFT KIT

SPOOKY STRING DOLL KEYCHAINS

Supplies:

Pipe Cleaner
Wooden Bead
Embroidery Floss
Hot Glue (Not Provided)
Scissors (Not Provided)
Felt (If You Choose To Make Clothes/Accessories For Your Guy, Not Provided)
Sewing Needle And Extra Floss (If You Choose To Sew A Face, Not Provided)

Instructions:

- 1.) Begin by making a skeleton. Fold your pipe cleaner in half.
- 2.) Glue the wooden bead to your folded section.
- 3.) Bend the pipe cleaners about an inch away from head to make arms. Then back to the middle.
- 4.) Bend remaining length in half for the legs. You should have a star shape.
- 5.) Next, take your string and cover the whole body by winding it around your base. Try tying it off in the middle and began wrapping from there. We recommend starting using hot glue to tack the yarn in place here and there... especially over the head. Keep winding until your guy is completely covered. Use a bit of hot glue to keep the end of your string in place.
- 6.) Decide what you want your guy to look like...If you'd like you can now add clothes and accessories. Use more string and or felt and create away. You can even needle stitch a face on it or glue beads on to make eyes.
- 7.) Tie or hot glue the key chain onto your string doll.
