

TAKE — and — MAKE

SOCK SNOWMAN

Materials:

Sock

Orange pin

2 Black pins

Buttons

Beeswax pellets

Mini glue packet

Rubber bands

Pom poms

Strip of patterned fabric

Directions:

1. Fill the sock with beeswax until the bottom section is almost full. Tie off with a rubber band. Divide the filled section into two parts, making a smaller circle for the head and separating them with a rubber band. Fold down the remaining empty top of the sock to create the hat.
2. Tie the fabric around the neck of the snowman to make a ribbon. Insert the pins into the head to create the eyes and nose.
3. Glue the buttons onto the body of the snowman. Glue the pom pom onto the hat.
