BEACH PHOTO FRAME

Materials:

Photo frame

White paint

Brown paint

Paintbrush

Sandpaper

Craft sticks

Scissors

Glue

Directions:

1. Paint the sticks with 1 coat of brown paint. Allow to dry, then paint with white paint until the brown is completely covered (this may take several coats). Allow to dry.
2. Cut the craft sticks into various lengths. Arrange them on the photo frame to make sure they completely cover the frame. When satisfied with the placement, glue onto the frame.
3. Using the sandpaper, rub the craft sticks until the top coat of paint is slightly faded to give them a weather-beaten look.

Enjoy!
